Student life at R. F. A. is exciting! There are always so many things going on, there just isn't enough time in the day. Here we strive to create desire for academic success, stimulate enthusiasm for worthy leadership, and encourage development of character. The place of learning is to be taken seriously with time for relaxation. We have excellent sports teams which are deeply appreciated, and musical activities such as band, orchestra, and chorus. There are many clubs and after school activities. This makes for a well rounded day. For seniors this has been three years of striving for the "always close but not close enough" title of graduation. Well, it's finally time. For juniors there is one short year left to go and they'll find that it comes much too quickly. For sophomores, this is just the beginning of their future record that will stay with them forever. This all adds up to be student life at R. F.A.

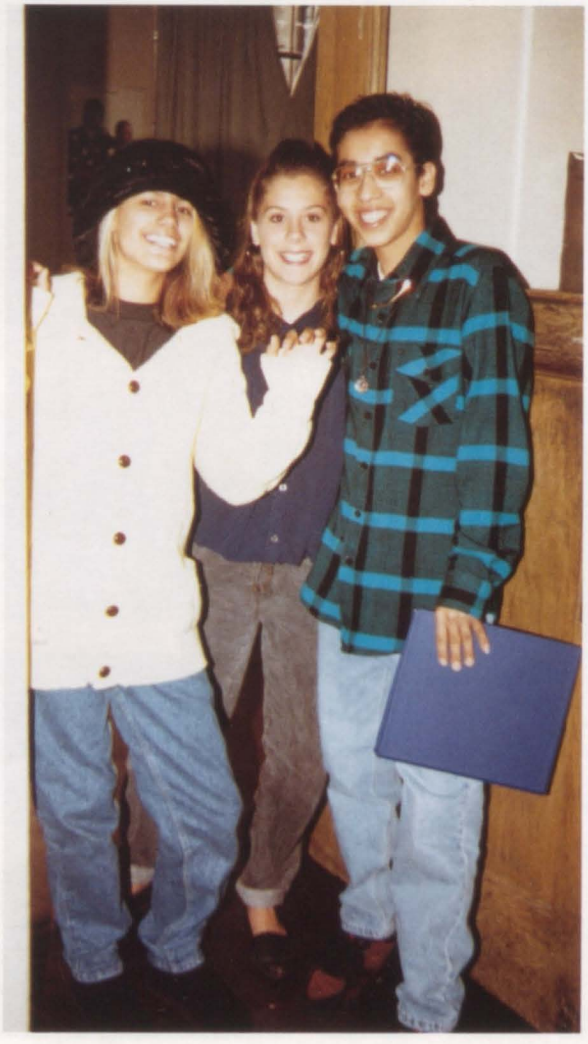
Keeping In Touch

Make new friends, but keep the old;
Those are silver, these are gold.
New-made friendships, like new wine,
Age will mellow and refine.
Friendships that have stood the test -
Time and change are surely best;
Brow may wrinkle, hair grow gray;
Friendship never knows decay.
For amid old friends, tired and true,
Once more we our youth renew.
But old friends, alas! may die;
New friends must their place supply.
Cherish friendship in your breast -
New is good, but old is best;
Make new friends, but keep the old;
Those are silver, these are gold.

-Joseph Parry

I get by with a little help
from my friends.
- The Beatles

School, as many believe, is not just a place of learning facts and information. It's also a place to learn values, that is, the difference between right and wrong, to learn to obey and respect each other, and most importantly, to practice the art of friendship. Friendship is one aspect of our education that will remain with us long after our algebra equations are forgotten. We have learned our most important lessons from our friends: to share, to care, to live, to love. Our true friends have been with us through good and bad, thick and thin. The bonds that we have formed are so often taken for granted. Soon the future will send us our separate ways and the struggle to maintain our ties will begin. Keeping in touch after graduation will become a very important part of our future.



Don't give up
'Cause you have friends . . .
When times get rough
you can fall back on us
- Peter Gabriel

JUNIOR

PROM '91

Some "Enchanted" Evening

The committee responsible for the spectacular job done on the 1991 prom consisted of Kelley Baker, Tanya Bush, Jesse Carpenter, Michelle Cesario, Larry Gratch, Megan Griffin, Karyn Gulla, Dan Kaleba, John Kaleba, Shannon Longo, Jennifer McCorduck, Dana Miner, Tara Pomento, Melissa Polce, Alicia Scanlon, Melissa Wilde, Paula Zakala, and Stephanie Ziankoski.

The Junior Prom was held at the beautiful Twin Ponds Country Club on April 12 from 8 until 12 p.m. The theme "A Royal Enchantment" was reflected in the colors chosen for the evening: Royal Purple, Emerald Green, Deep Burgundy, and Brilliant Gold.

For dinner there was an Italian Buffet. Entertainment, which was provided by D.J. Linda Ray, included the playing of the theme song "Wonderful Tonight" by Eric Clapton.

The highlight of the evening was the crowning of Queen Dana Miner and King Terry Goetz. The court consisted of: Jerry Burlison and Shannon Longo, Scott Podkowka and Karyn Gulla, Brian Tardugno and Lisa Trophia, and John Kaleba and Megan Griffin.

C'mon Brook, it wasn't that funny!

Senioritis, that terrible disease that strikes us all this time of year, has arrived here via Mack Truck. The days of needing a hall pass are long dead. Going to class is no longer needed. Classes seem endless, and week-ends are too short. Nevertheless all our wonderful memories of R.F.A. will last us a lifetime.

LOCKERS IN AND OUT

Home away from home-my personal snack bar-on the run dressing room-all my important papers, tests failed, tests passed(?) Place to exchange vital information-who is seeing who, when is practice, was the test tough, is my hair messed? The one place to have a little privacy. FUTURE GOALS

As we approach the end of our Senior year, we begin to think of what lies after graduation. To some of us, it brings visions of Harvard Law School, to others it's the City Sanitation Department. Whatever we decide, it's apparent that the class of 1992 has set high goals for itself. Good Luck to all, May the Force be with you!!!

FRIENDS FOREVER

They are people with whom you can stay up all night and not be embarassed by how you are in the morning. They don't make fun of you if you snore (they probably do too!) or if you talk in your sleep. Privacy is well respected among friends. When rumors go around about you, you can be sure your friend will stick up for you. When you're down, they are there to cheer you up. If you have a problem, they're there to listen. No matter how many arguments you may have, your friendship manages to survive. A true friend is more precious than Gold!

HANGING OUT ON THE WEEKENDS

Everyone anxiously looks forward to the weekend. It's our chance to do what we want, and no homework! Unless your English teacher is nice enough to give you an essay due on Monday. THE ROYAL TREATMENT

RFA Field Hockey Captains Jennifer Guy and Susie Klopotek are showered with gifts on Senior Night at Pinti Field.

We're Seniors, and that means we get special treatment. We've paid our dues as sophomores and juniors, and now it's our turn. Strolling in late to class, leaving a few minutes early. WALLY

The Birth of "Wally"

The incredible creation of John Kaleba, Dan Kaleba, and Larry Gratch. With the help of Nuclear Physicist, Mr. Kunkel. When "Wally" was "born" his structure resembled the sketchings of Van Gogh. Then the chicken wire was put on and the stuffing began, and we stuffed, and stuffed, till we were really sick and tired of stuffing! Our crisis, the tail fell off, but we banned together and "saved the whale." Our injury, Jesse Carpenter, who had to be "rushed" to the emergency room to amputate his leg (ha, ha). But most importantly, we all had fun, and our experience together at the barn bonded us for life and we will carry the memories with us always.

Good luck guys!

A WINNING CLASS

Just before half-time Todd Zauner puts the finishing touches on the class of 1993's float. The Flintstones and the Jetsons proved to be a winning combination for the juniors.

Building the Junior float was absolutely a group effort. Just ask Teri Kehoe, she'll tell you, it was a lot of fun! The hard work paid off so CONGRATULATIONS float builders!

BETWEEN CLASSES

Hey, Trudy Burke, who are ya talking to? Tell him you will call him back after next period! Don't forget to bring some more change!

Football is not the only tradition in RFA, the most prominent tradition is pulling the fire alarm. Hope you can run fast, Micah Filippini!

THE SOPHOMORE CLASS OFFICERS

The class officers were optimistic about the "Pajama Jam" they planned so the class members could mingle and get to know each other. The purpose was to unite the class and help it grow stronger while everyone had a good time!

The officers for the class of 1994 are Timothy Hickey, treasurer; Barbara Konstantinidis, president; Daniella Torono, vice president; and Kristen Nawoj, secretary.

ATTITUDE IS EVERYTHING

Sophomores know all about attitude. Especially Shelly Angotti, Trisha Schillaci, John Sparace, and Daniella Arrighini. Lunchtime is their favorite because leisure time and attitude go hand in hand. By the way, John, what kind of cologne are you wearing?

Here we have Amy Frank and Kathy Palinski doing what? Absolutely nothing. What can be said that hasn't been already said for two pretty girls standing in the Knight Spot during lunch so casually? Smile girls!

STANDING AROUND

Girls' fashions are a different story. The sleek and the button-fly bumming around looks are always fashionable. You don't see any hats on Kim Leighton, Allyson Sasenbury, Danielle Dipasqua, and Kim Schafer.

Every now and then, the modern and fashionable school of RFA experiences a new craze. On this day it was hats and checkered pants for Jason Decharo and Justin Falk.

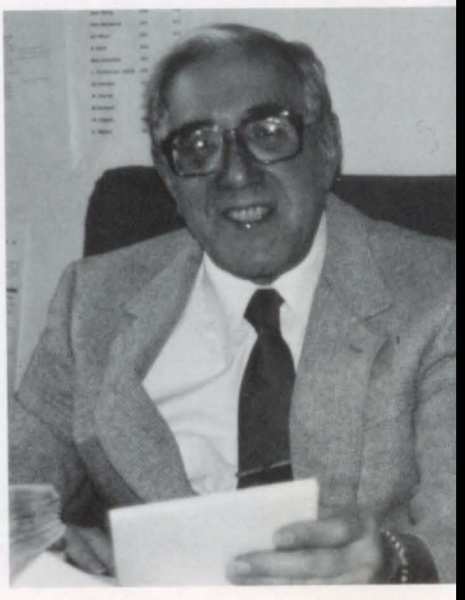
STAFF



Mr. Belmont, a guidance counselor here at R.F.A. for 31 years has decided to retire at the end of this school year. His plans for retirement include going back to college. He plans to take classes at Utica College in Russian, German, and Spanish. Mr. Belmont said he enjoys languages and is learning them for personal enrichment. He wants to spend time relaxing at home also. Mr. Belmont has generously left $5,000 to R.F.A. to establish a guidance scholarship. Every year the guidance counselors will pick a student they feel deserves the award. The money for the scholarship will come from the interest on the money donated. Mr. Belmont is an excellent guidance counselor and we will miss him. We wish him the best of luck on his retirement.

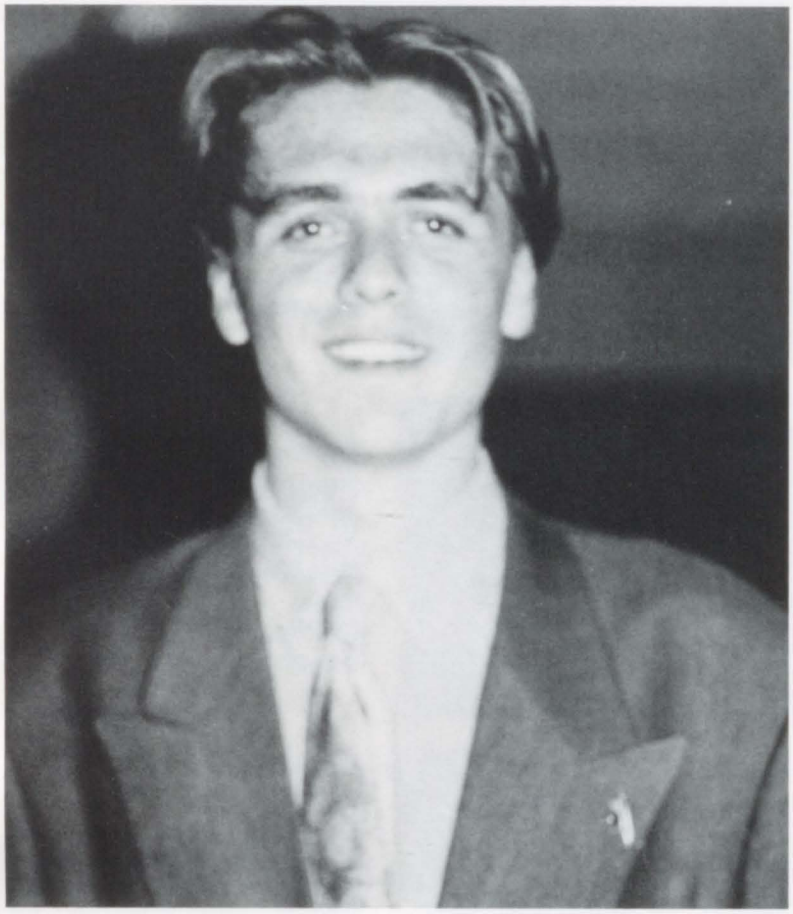
ROME FREE ACADEMY



Alexandre Garcia Pellegrin is a foreign exchange student from Annecy, France. His city is three times as big as Rome. The courses that he has taken at RFA are: US History and Government, French, English, Russian and Yearbook. He plans to stay until June for graduation even though he's already graduated from his high school in France. He came to the USA in order to experience a new style of life and to improve his spoken English. He is planning to find a job where he can use his languages and travel all over the world. He would have preferred to live in a bigger city than Rome and located more in the south but he enjoys his stay and the few close friends he has met here.

Axel Kraforst is foreign exchange student from Bonn, Germany. His city is about five times as big as Rome. His hobbies include skiing, soccer, tennis, diving and going out. The subjects he has taken at RFA are: US History and government, Art, German, gym, Typewriting. When he goes back to Germany, he needs two more years of school before his final exam. He is planning to get a job where he can make enough money to travel all over the world. He would like to live in a warm country, closed to the beach. He plans to leave Rome at the end of June in order to celebrate his birthday in Germany.

FOREIGN EXCHANGE STUDENTS

Adriana Gordillo Racines is a foreign exchange student from Quito, Ecuador. Her goals for this year are to learn English, to have different experiences, to make new friends, to share her culture and to learn ours. So far, she likes RFA even though it is completely different from her school in Ecuador. During this year, she has realized that people in her country give too much importance to feelings and values. As far as school is concerned, she would be in college but she preferred to come here because she did not really know what to do after high school.

Jennifer Wendt is a foreign exchange student from Paris, France. She plans to stay here until June with her father who lives here. She is planning to enter the American University of Paris. Her subjects taken at RFA are: US History and Government, English, Spanish and French. She thinks that Rome is too small but she still has a good time. Her hobbies include horseback riding, playing piano, playing guitar and reading. She also enjoys going out on weekends and having fun at the Mall.

Gloria Calsina Salavert (Spain), Jennifer S. Wendt (France), Alexandre Garcia Pellegrin (France), Axel Kraforst (Germany) .... Having fun at lunch ... NOT!!! ...

The European exchange students at R.F.A. feel frustrated about the idea of only having a half hour lunch period and are especially upset at not being able to leave school freely. In Europe, lunch periods are a lot longer (for instance two hours in France) and students are free to leave school when they want to without any permission from parents. The system of hall passes does not exist in European schools either. Gloria, Jennifer, Alex, and Axel feel that American students are not' - treated as adults whereas European students are treated more as adults.

YEARS OF PRIDE AND TRADITION

TRAINER'S CORNER
Kelly McAlee M.S. A.T., C.

I take care of injuries for all sports teams, but since my office is at R.F.A. I became particularly involved with those teams that practice at R.F.A. This years Varsity Football team had very few major injuries. We actually went 8 games without an injury. The seniors on this team have been hanging around the training room for 5 years so they will be sorely missed next year. But many of their stories and quotes will live on in our memories.

LET'S GET BUSY!

RFA has a wide variety of organizations for students to join. Every Wednesday, during activity period, many students attend meetings of their preferred club or organization. One of these many clubs is The Black History Club, as seen on the left.

Featured in the photograph are Greg Johnson, Michelle Czerwinski, Eric Bowes, Larry McCrea, and Venice McClendon, members of RFA's Black History Club. Here they are goofing around while they wait for the meeting to be called to order. But don't let this picture fool you. Meetings are taken very seriously. Members learn about people and events that aren't taught in the history books. One of the club's activities is annual participation in an essay contest in celebration of Dr. Martin Luther King Jr.'s contribution to mankind. This years contest winner was Shannon Bechy, a junior here at RFA. Her reward is a trip to Atlanta, Georgia, the birthplace of Dr. Martin Luther King Jr.

The Black History Club is for anyone who is interested in learning and having fun at the same time. And if you don't join this club, there are many other organizations to join. So get active everyone!

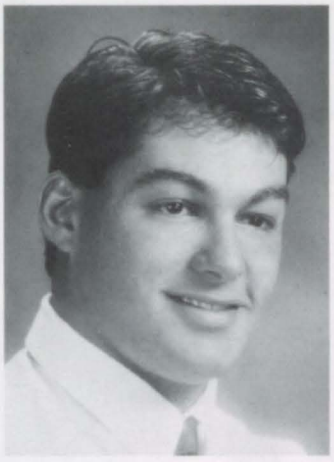
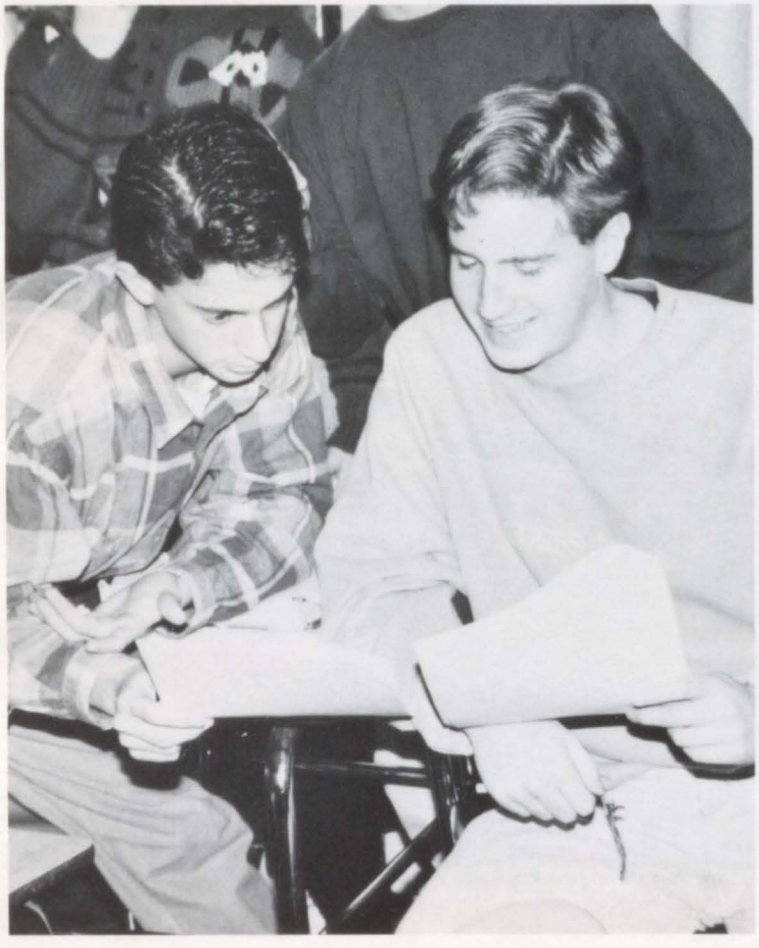
R.F.A. Black Knight

DID YOU SEE THAT?



He's back. Anthony Grieco left R.F.A. halfway into his sophomore year to attend Notre Dame High School, and returned this school year. He said, "Although Notre Dame is a small school with a welcoming family atmosphere I am glad to be back." He feels we have better teachers and better sports programs. Also, RFA students are a bit more "wild" than Notre Dame students. He said, "It is a unique atmosphere here and I like the high-risk environment."

Learning is definitely fun at RFA! Just ask Jeff Versace, Jason Quinn, and Lynn Palmer as they witness the creating of a masterpiece by Michelle Czerwinski. That's entertainment!



Mr. Wood is the Physics lab instructor for the 1991-1992 academic year. His position was created as a result of teacher Mr. Haley's absence due to injury. Mr. Wood is a graduate of SUNY College at Oswego, and he credits his interest in teaching to both his parents and his former teachers. He is sharing his knowledge with Kristin King and James Hopping.

Students at RFA are serious about their future as told by the expressions on Jamie Kembrey, and Billy Schatz. These two are preparing for the future!

Cash or charge? Anthony Turano is shown a sweatshirt by salesperson Lisa O'Rourke. The Knight Spot is a credit course for students. This course offers the student the opportunity to work in the school store.

The memories of the years we have spent with one another Have been the best and can't be compared to any others. From elementary, to junior high and Rome Free, A new beginning in our lives can now be seen. The many great times in these years we have spent, No one knows where all the time went. Sporting events, semi-formals, the Prom, the Ball, parties, friendships, and that's not all. Alas, we have come to be high school grads. Some feel happy, yet some are sad. As we leave one another to venture into life, our close, dear friends we must sacrifice. The wonderful memories will stay forever in mind, until, together once again, we ourselves do find. As we leave Rome Free Academy we must never forget and must foresee that the memories of our lives as in unison will forever be.

-R. Gorczyca

THE CLASS OF 1992

REMEMBERS

MICHAEL J. GRIECO
1974 - 1991

This past fall, we, the class of 1992 began our final year at Rome Free Academy. In the midst of preparations for homecoming weekend, our school was silenced by the loss of a dedicated student and well-liked friend, Michael Grieco.

Over the past few years, Mike had become an inspiring part of our lives. Everyone who was touched by his warmth and wit will feel his absence for the rest of their lives. Despite participating in varsity sports, Honor Society, and other activities, Mike always found time to make someone laugh or smile. He always thought of others before himself and would hurt himself before others.

Whenever we remember Mike, we think of an entire night of homework completed in the ten short minutes of homeroom or talk of the hopeless Jets' recent loss or the new Genesis album. He was a typical senior, although he caught Senioritis a year before most of us. He was quiet until you got him talking and then you couldn't stop laughing. Michael Grieco, gone but not forgotten, will always have a special place in our hearts.

On June 28, when the class of 1992 graduates Mike will be there with us.
